CORPORATION

**Series Multi
Chargers**
MADE IN USA

We design it, We build it, We test it for quality, We ship it with confidence

- **Reliable:**
Transformer based design. Modular construction makes for easy serviceability.
- **Safe:**
Current limited, and reverse polarity protected. Completely isolated.
- **Durable:**
Built for round the clock use.
- **Proven:**
In production for 30 years.
- **1 year warranty**

Designed around the needs of battery specialist, fleet operators, warehouses, and reclaimers. Constant current output is current limited, and is controlled by one linear adjustment. Voltage is adjusted automatically. The reverse polarity feature, and isolated copper transformer make the Series Multi SAFE. Charge groups of automotive, marine, and golf cart type lead acid batteries. They are not recommended for gel, nicad, or motorcycle batteries.

Some Applications:

- Battery Reclamation
- Battery Distributors
- Fleet Operators
- Warehouses

MODEL	DC VOLTS	number of CELLS	DC AMPS	AC REQUIREMENTS	DIMENSIONS	WEIGHT
QPA6-127v/6A	6-127	6-60	6A	117VAC 60 hz. 9 amps	8 x 12 x 9	34
QPA12-127v/15A	12-127	6-60	15A	117VAC 60 hz. 18 amps	8 x 12 x 11	48
QPAX36-240v/6A	36-240	18-120	6A	230VAC 60 hz. 8 amps	8 x 12 x 9	38

Available in 230 volts 50 hz. Specifications are subject to change without notice
